

# SUPER DUTY FANS

## SD4V

### 48" Variable Speed Overhead Fan

The SD4V fan is perfect for medium areas that need huge, even airflow. Set the speed to your comfort level in any season. With a totally-enclosed 1.5 HP TEFC motor, it gets the job done, and is built to last for years. Installation is a breeze, and it is efficient, quiet and powerful. Hang at least 7' from the floor, and at least 2' from the ceiling. Those summer days get dangerously hot and this fan moves big air to make it tolerable.

## SPECIFICATIONS
